

THE
DOORS
DESIGNED
TO IMPRESS

DECOR

BECAUSE EVERY SPACE BEGINS WITH A DOOR

It's the first thing you see. The first thing you touch. The first impression of every space. At Decor Doors, we believe a door is more than just an entry—it's an invitation, and that's why we come up with doors designed to impress.

With a legacy since 1973, we have been a trusted name in high-quality wooden joinery and doors, serving leading builders across Ernakulam and Trivandrum. Two years ago, we expanded into premium doors, bringing our expertise to a wider range of projects, including homes, hotels, resorts, hospitals, and commercial spaces.

Our product range—veneer doors, pre-hung doors, and wooden doors—is designed for builders, architects, and interior designers who seek strength, style, and long-lasting quality in every space.

MISSION

To craft beautiful, strong, and durable doors that help every space make a lasting first impression.

VISION

To be the most trusted leader in premium doors, redefining craftsmanship and setting new benchmarks in design and quality.

THE ART OF CRAFTING DOORS

THE PRODUCTION PROCESS

At Decor Doors, we make every door with care, ensuring it is strong, stylish, and built to last. Whether it's a wooden door, pre-hung door, or veneer door, we follow a step-by-step process to deliver the best quality.

First, we carefully choose the best materials to make our doors. The outer structure is made from solid, seasoned hardwood from Koila, Indonesia, while the inside has a strong, lightweight hollow core from Sauerland, Germany, for stability. For a premium look, we finish it with high-quality veneers or laminates. Then, we cut, shape, and assemble each door with precision using advanced machines.

Next, we add the finishing touches. Both veneer and wooden doors are polished to bring out their natural beauty, while pre-hung doors maintain their sleek factory finish.

Before delivery, every door undergoes strict quality checks to ensure it is smooth, strong, and built to last. Once approved, we carefully pack and deliver them to homes, hotels, offices, and commercial spaces—ready to make an impression.

PREMIUM DOORS FOR EVERY SPACE

VENEER DOORS

Strong, stylish, and natural-looking—our veneer doors combine the beauty of wood with lasting durability. Made with a Sauverland German particle board core and finished with exotic veneers, they add something to any space.

PRE-HUNG DOORS

Ready to install, easy to level! Our pre-hung doors are perfect for making installation quick and stress-free. Perfect for homes, hotels, and offices, they offer a classy look to every entrance.

WOODEN DOORS

Timeless, sturdy, and full of character—our wooden doors are crafted for those who appreciate the richness of solid wood. With a heritage dating back to 1973, our journey began with a wooden mill, where we mastered the art of wood selection.

With decades of experience, we have extensive knowledge of both imported and country wood, allowing us to handpick the finest materials with precision. For us, quality is never compromised—every wooden door is built to last, impress, and elevate any space with its warmth and elegance.

What started with wooden doors has now expanded into new segments, but our passion for wood remains at the heart of everything we do—making every entrance feel grand.
